1. We received a long distance telephone call on 27 May 53 from an import-export agent in Boston who explained that he had recently been in Turkey and while there had been approached by the firm of Alka, of Harbiye Cumhuriyet Caddesi Besler, Apartment 10, Istanbul. Alka requested him, upon his return to the US, to assist in the purchase of spare parts for the GMC 6x6 military truck, and explained the parts were needed by the Turkish government. The gentleman read a list of the parts desired over the phone and it was an exact duplicate of the list formerly received by us from Alka (see [redacted]), and a similar list received in Nov 52 from the Mac Donald Brothers Equipment Company of Ontario, Canada.
